I hope you will not cease to lay before your readers the duty of all those who believe in sustaining the policy of the republi-can party to cast their influence and vote for its nominees. There is always more or less disappointment at the outcome of caucuses and conventions, and yet it is a healthy sign when two or more candidates are soliciting through their friends the support of such

If the people are alive to the results of their conventions, they will attend the caucus, and thus a larger gathering will be had on account of it. But no one can expect that his personal wishes will always be re-

garded by the majority present.

In the opening of this campaign we saw many men, not unknown to the public, working for the renomination of Mr. Burrows, who were openly opposed to his election two years ago, and who no doubt sided to defeat him then. This certainly indicates success now, and it may be set down as settled that Mr. Burrows will be elected to the next Congress as the representative of this district; and this appears evident, not only from the return to his support of many that were alienated two years ago, but because the course of Mr. Yaple has been such as not to warrant the support of any man who believes in the American policy of protection to home industries. Mr. Yaple is not only an out Bank of Decatur as garnishee of Robt. E and out free-trader, but in Congress affiliates Curtis; garnishment. Dallas Boudeman; with the free-trade wing of the democratic Parkhurst & Moulton. party, utterly ignoring, in that respect at least, all his obligations to the protection their votes cast in his behalf.

It will be remembered that he went, on the evening before the assembling of Congress, into the regular democratic caucus, as if he had been sent there by a regular and not by a ratified nomination of that party, and advocated and voted for the nomination of Mr. Carlisle as speaker and opposed Mr. Chandler. Randall, who more nearly represents, for a democrat, the sentiment of this district on most public questions, thus giving his aid hair Co.; assumpsit. Crane & Breek; Annaand vote to a regular democrat for speaker, ble & Fitch. as one under no obligation to the fusion element that elected him, and selecting such a democrat as opposes the views of a majority of his own constituents, whether democrat, fusion or republican, for his favors. And finally he closes his labors in the first session of his term in Congress by delivering a very sophomorical and radiant free-trade speech, to the utter confusion of the manufacturers and wool growers of the fourth district.

It would seem certain, therefore, that Mr. Yaple cannot poll anywhere near the vote he he polled in 1882. Indeed, it is a matter for them to regret, that the democratic machine cannot put in nomination a man more in sit. Crane & Breck, accord with the views of most of their followers, as they seem now about to be beaten with the old time majority, and strangers in their grave with strange ideas may disturb

their rest. But briefly, Mr. Editor, it matters little what counsels our opponents follow or who may lead them. The county is too full of republicans for any alarm, who will manifest their presence with their votes when summoned to the polis; and that the Non-THERMER will do its part in bidding them come forth, is also assured. Yours, GEO. W. LAWTON.

The land rises gradually in all directions from the clear waters of the lake and to the F Heckert; Calvin Cross and O N Hilton. south and west stretch the bountiful fields with beautiful farm houses, that are pleasant objects for the eye of the boatman or fisherman to rest upon.

The railroad runs along the beach on the north margin of the lake, from which the land rises abruptly to the heighth of fifteen feet, and thence extends to the north, covered with wide spreading oaks, beneath whose umbrageous shade the idler may stretch himself at his ease, upon the native couch which mother earth affords to her weary children, or swing in his hammock securely suspended from the sturdy branches, or lie in his tent upon any couch with which he may have seen fit to provide himself. In any event he is sure of as much comfort and advantage as such situations usually afford, and the natural surroundings are all in favor of personal enjoyment.

It is understood that Mr. Ihling will build a summer hotel on the grounds, which he will perhaps occupy with himself and family, and there will thus be afforded all the luxuries and comforts of a first-class summer hotel:

Few people are aware of the important work now under way in northern Minnesota, to guard against the dangers of high water and the inconveniences of low water in the Mississippi River. A number of lakes in that region are being connected into a reservoir system, which is to collect and feed water as it may be required. A full account of this great engineering work is promised, with illustrative diagrams, in the September Harpers.

The leading one is by Bishop J. The policy of "The Exclusion of the Chinese" is advocated by John H. Durst, who presents a striking array of

forcible and original arguments against Mongolian immigration.
